Title of Paper

Dr Yakub - Modern Medicine and the Age of Raa.

Excerpt - Abstract/Description

...And then there were 2. Re: Revelation 6:2 & 6:8. 2 'Seals' and going for gold. I write and I write again and in my place of confinement – Cgynet Hospital Colchester UK.

This document was written as a top level, level 1 piece and can be seen as a 'fleshed out' extended document that once again proves the point that English or broken English was used in naming Sumerian deities/gods. And if there is any similarity in content with my first paper – English, the language of the gods, it begins with the watermarks used at the start of each paper and then in the aims/objectives of both papers.

'Royalty' happens to be the significance of the watermark that graces the first top page of English, the language of the gods, while 'Medicine' is the significance of the watermark that lays a top this paper.

The similarities end there as this document/paper was both meant to inform and warn about the junction in time we have arrived at and the medical choices and implications that may lie ahead.

This document also then goes further to scantily depict how a medical frontier was reached and breached. It then strove to illustrate the way forward from here. It was re edited on the 12th of June 2025 and brought up to date and in line with crucial omissions that I at one time deemed too sensitive to include in the original document dated the 15th of November 2020.

This paper while deciphering secrets of ancient Sumeria, it should also be said it was written in desperation and used to prove at both times of writing my:

- Academic prowess and
- Sanity/Stability of mind.

As in England, UK here, I was deemed not intelligent enough to qualify for a Masters degree and after 2 consecutive attempts, one year after the other.

I was now supposed to be so mentally unwell and in crisis I needed urgent hospital admission. And so before the world's eyes, remote or otherwise I was held against my will with a Section 3 legal order that held me in an acute psychiatric ward for 9 months at Cygnet Hospital – Colchester.

I was being harassed by the State and on this hospital admission I was assessed by 2 Doctors and a group of about 6 Police people who it should be said politely chatted with me for about 3 hours before moving me to Colchester, for so toxically race charged was the climate at the time that I was without the slightest provocation called a Nigger by a Doctor.....and right before other nursing team members.....

Objective of the Paper

The aim of this paper is again 3 fold:

1. To propose a theory. To boldly suggest and prove that the names of Sumerian deities are to all intent and purposes - English or at worse broken English. Example deity name, Enki translates as End-key. Sumerian deity name Teema translates as Thee-Ma.(i.e. Thy-Mother)
2. To infer that encoded messages may be perceived by reading the original scripts in their proper context using the example of English above.
3. To suggest that the encoded messages are relevant and meant for us in our present time.

Part of King Shulgi's praise to the Sun god Utu Shamash as shown on <http://www-etcs1.orient.ox.ac.uk>

Introduction

There is a popular saying - lightning doesn't strike twice or lightning doesn't strike twice at the same place. This saying has been used to communicate to people that something like a discovery of the calibre of - English, the language of the gods, cannot be repeated.

Well to this I will attempt to give a simple answer - Yes, it can. And it did happen to this Writer twice as the discovery I am making to you now - Dr Yakub, Modern Medicine and the Age of Raa, ought to have been shared with you in 2001 too, together with - English, the language of gods.

Truth be told over-riding stormy event after event and over-lapping turbulent incident after incident pushed, overtook and obstructed this Writer since 2001 and I it should be said did not even get a single letter of compliment/correspondence for the time and effort for my first find except for one case.

A special case where an old University mate who was so impressed with... English, the language of the gods -he went all the way to Egypt from his base in America to give me a

shout-out which he did transmitting through social media - a congratulatory celebrating photo of himself by the Pyramids.

And this he did in about 2019. He went all the way to Egypt ...from America....just to register his appreciation/approval. He had only just heard, you see.... Still yet I was very much moved as we never spoke while we were in University. We left University in 1990 some 30 years ago and more....

Still yet, Wale Mosaku, reciprocating in the same spirit, I hail you. Eyes water as I say it meant a lot to me. As it was just about the ONLY compliment that came through to me after all these laboriously fruitless years.

If researching and writingEnglish, the language of the godswas a labour of love, this paper - Dr Yakub, Modern Medicine and the age of Raa..... in this June 12 dated edition, is a grief stricken wake-up call and remainder which truthfully instigated me to write this.

As my conscience kept being poked and prodded privately knowing I suffered the burden of harbouring and hoarding privileged information with regard Bola Ige's final departure which is disclosed here for all to see.

Bola Ige or Uncle Bola was a hero of mine. And yes, I too was witness. Witness to the high vaulting standards he displayed.

He was regretfully as the timing of circumstances made it, a sad tragic causality of the 'struggle' It is hoped therefore he is remembered well.....

Akaddian/Sumerian Cuneiform textual writing on baked clay tablet

Back to the bone of contention, another monumental once-in-a lifetime discovery but this time about the connection between English language, ancient Sumerian/Babylonian text – its gods/deities, myths, religion, tradition and culture. And yes, how in present contemporary time it yielded its secrets, managed to get decoded and made publicly known.

Ancient Sumeria geographically occupied the land space of Mesopotamia – modern day Iraq between Euphrates and Tigris rivers and as a civilisation/empire it flourished for a time of about 4500 to 1750 BC.

The records show a glowing list of achievements that featured “numerous innovations including the development of writing, the wheel, mathematics, and water irrigation”

There were also impressively constructed building structures which the Sumerians called Ziggurats. Ziggurats it should be said were very much like ancient Egyptian Pyramids except they were built of massive stepped temple-like architectural structures.

Ancient Egyptian history, literature, religion and myths were recorded in hieroglyphics on papyrus and murals while ancient Sumerian history, literature religion and myths were recorded in cuneiform writing on clay tablets and murals too.

If it has been observed in the papers this Writer has presented that there are similarities in the connection between English language and both ancient Egyptian text and ancient

Sumerian text - the discoveries this paper presents however gives a fresh, exciting and additional dimension with 'Specifics' or 'Specifications' provided which offer themselves up for clear, thorough and precise examination.

Specifics or Specifications such as days/dates used in festivals/ceremonies and the blood submitted by a Sumerian god would be looked at further in this paper. Otherwise a number of discoveries were made and Sumerian festivals/ceremonies were explained further and brought in line with contemporary time and in turn introduced with new meaning.

The 'Sumerian' Expedition - A Prologue.

Sumerian text submits there were 2 Gods who stood well above the others. There were Anu and Antu. There were other gods too, there was Enlil, Marduk, Teema and Enki who partook of what appeared to be an expedition with each god given assignments which they were deputised to undertake by Anu and Antu.

Chiefly of note to us is the assignment given to Enki and Teema. Enki was tasked with the creation of man and this was achieved using an amount of blood from Teema. America's Nation of Islam submission tallies with the Sumerian, however they brought forth another name as the scientist responsible for the creation of man.....the name they gave was Dr Yakub.

As an analogy the future ladies and gentlemen beckons and we are all speeding along in a car. The issue then becomes where are we going? Are we all going in the same direction? Or do our paths diverge? At this point I re-introduce Robert Temple's fascinating book - The Sirius Mystery, with one of its submissions....

....It submits there are about 12 planets and populated with different kinds of beings and they were tasked with a joint grand intergalactic mission, that is to redress their warring present by going back in time to the point of their divergence and stopping their taking different paths to become that future of 12 warring planets. Present day's planet earth being their point of origin.

However far-fetched one may deem this submission it still remains pertinent there are issues here on earth today that have to be looked at. There are currently scientific and technological advances in:

1. Bio organic manipulation - like Hobs Control genes which essentially are biological and consists of the manipulation of the organs at the genetic level.
2. Cybernetics - the study and scientific development of man/animal and machine as a combined functioning unit.
3. Robotics - the advanced study and scientific development of robots or machines.
4. Nanotechnology - molecular and atomic manipulation to achieve an end result or product.

....which could easily lead this world astray....

In my paper - English, the language of the gods...which may be freely downloaded on www.ToluOladimeji.com The lengthier/extended 56 page copy relays a message of horror/s...well here we are now 20 years later with technology geared into full throttle.

I feel there is the need to say or re echo my ominous warning that we have indeed arrived at a junction in time and that with technological advances the man-machine nightmare or fantasy Sci-fi fans dread or fantasise about is here with us now. And it is one I would in all humility caution against.

The mission I tell myself is never really over.....no doubt the remaining seal knows as much, as his prompt came at a strategically pivotal time.....to proceed and to write this.....the next and perhaps final chapterand the way ahead.....

Note - The 'Sumerian' Expedition - Continues on page 18 with Policing.....

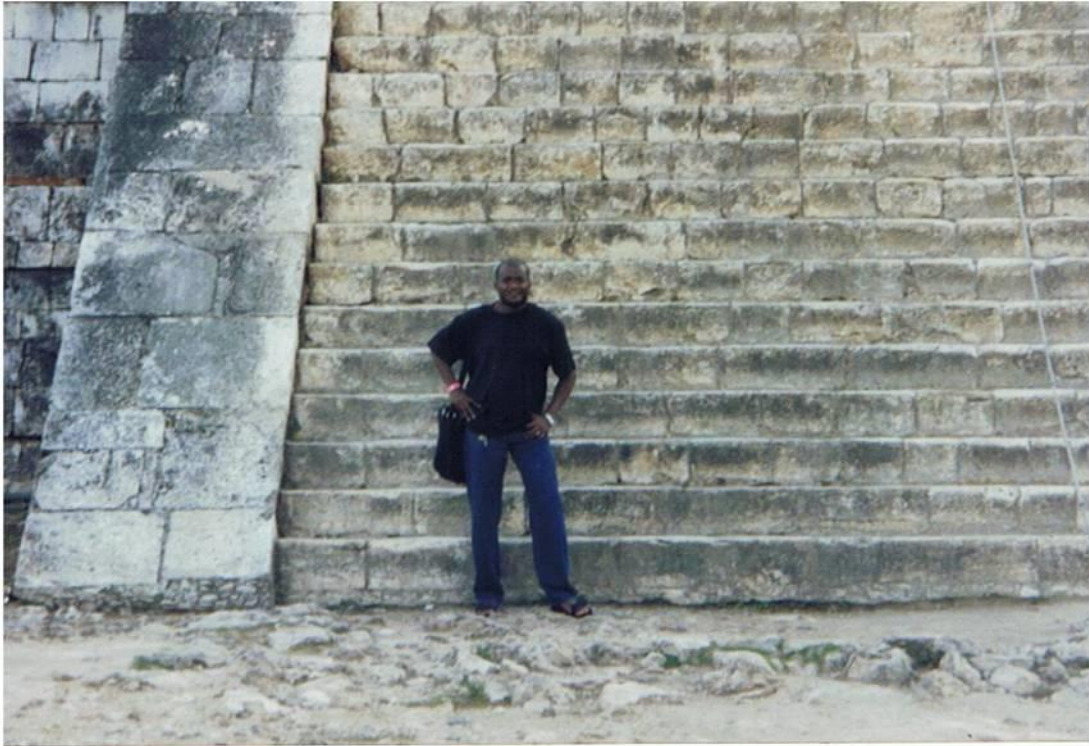

Research And Analysis

The year was 2001. It was the year I researched and wrote – English, the language of the gods. It was also the year I researched and made other discoveries from ancient Sumerian text and other sources.

Some of the discoveries and valuable information was communicated and shared with the International community through the British House of Parliament and a few International news agencies.

2001 was again the year drawing from classified and biblical sources I warned and informed of turbulent times ahead, if they were indeed to prove to be correct. This Writer then came up proactively with a Project Plan called – The African Solution.

This Project Plan proposed the cultivation of a continental breadbasket to see off the perceived possibility of a global threat. The plan was also about designing/developing a Super Trans-African railway and highway road system.

Research Trip - Mexico 2001/2002

Further research in the year - 2001 then led this intrepid Writer to Mexico where he came into town spotting among other things a 'Black Cowboy hat.' As he had gambled his hypothesis/theory would hold up that there was a crucial connection but missing link between Sumerian ancient texts and Mayan ancient texts which previous scholars could not work out.

The clue and even the glue that bind both ancient Sumerian and Mayan text lay with precise specifications in their rituals/ceremonies that are associated with - Time.

Sumerian text is littered with given examples of Specifics associated with Time or Time Specifications. The text below is an example and was provided by a leading Sumerian authority - Zecharia Sitchin.

An Example:

*On the seventh day,
forty minutes after sunrise,
the gate shall be opened before the gods Anu and Antu,
bringing to an end their overnight stay*

Precise Time Specifications were also provided in ancient Sumerian festivals/ceremonies.

Example I

- 1. Festivals/ceremonies that specify a date – Nabu.*
- 2. Festivals/ceremonies that specify an amount of days – Akitu.*

As it is known that ancient Mayans on the other hand were considered by scholars of ancient texts as the - Time Keepers, this Writer looked to Mayan text and its connection with Time as a point of reference when looking at the Sumerian festivals/ceremonies given above.

Example II

- 1. Nabu – As in the 5th day of the Sumerian festival/ceremony.*
- 2. Akitu – As in the 5 days duration of the god Marduk's tribulation.*

The provided examples I & II are both evidently Time specific. Mayans also opined that Time as a concept was not linear but circular. This hypothesis/submission made this Writer - think, deduce and draw more conclusions which were reaffirmed once again in Mexico.

Mayan Olmec Head

Importantly, the festival of lights and sound at Chichen Itza which in 2001 was held on the night of the 28th of December put paid to what I have been trying to convey. As this date proved to be the actual date that marked the end of the countdown of the deity Marduk's tribulation which is detailed in the Sumerian Akitu festival.

The 28th of December 2001 coincidentally also happened to be this Writers birthday. It was also described by the ancient Mayans as the point where the past and the future (time) met.

Another precise time or date specified in ancient Sumerian text is the term - Nisan. Nisan is a day within the period of the Akitu festival/ceremony. This day in question in the year 2001 this Writer deciphered and translated to be the 23rd of December ...

Nisan (Re: Sumerian text) = As in without a SAN.

Nisan is associated with a specific date in the overall Akitu festival period.

The 23rd of December 2001 happened to be the date the Attorney General and Minister of Justice, Bola Ige, SAN - Senior Advocate of Nigeria, died.

Nisan = Nee-SAN (SAN is a distinguished legal Nigerian title.)

Bola Ige aka Uncle Bola was seen as the loyal and trust worthy political lieutenant of Chief Obafemi Awolowo - the best President Nigeria never had, and was assassinated while in office.

He was shot dead by hired gunmen on Sunday December 23rd, 2001. He was a brilliant, fearless, independent-minded and astute politician who spent most of his life fighting - 1st for Nigeria's independence and then for democracy under successive 'military regimes.'

As an alumnus of the University College of Ibadan/Nigeria, he studied Classics and was able to discuss and campaign intelligently in the 3 major languages of Nigeria: Hausa, Igbo and Yoruba. His command of English Language was also impeccably flawless. His intellectual sagacity and eloquent oratory earned him the alias - Cicero after the Roman statesman, lawyer, scholar and writer.

Bola Ige (Uncle Bola)

Chief Bola Ige was a devout Christian who fought for justice for the down trodden and stood on the side of the poor and less privileged. He launched policies of free education and free health in the face of austere budgetary constraints and severe opposition from political distracters.

The one-time teacher and lawyer was a constant thorn in the side of Nigeria's past 'military dictators' who jailed him 3 times on trumped up charges. At one time alone he spent 31 months in jail as a result. He was also a Yoruba traditional king-Maker.

At about the time of his death he had accepted an appointment and was due to serve an International law making body of the UN. His desire was to promulgate bonding International laws against sponsors and engineers of ethnic/global conflicts, genocide, extra-judicial political killings, famine/diseases among others.

Again 'Ni-San', this sudden and unexpected tragic loss suffered in the aftermath of September 11, 2001 left this Writer stunned but not unaware of the possibility of an active international gang of well organised and highly connected 'harden criminals' at work.

"Black Hawk Down"
The Hollywood Connection?

Only at point of Uncle Bola's death did I then instantly figure out and come to realise the very deep, grave and profound implications of the ancient Sumerians/Sumerian text - NISAN.

At first glance I knew there was an issue of calibrating the calendar as there was a mathematical discrepancy/difference between the calendar used at the time in ancient Sumeria and the present modern Gregorian calendar as they were not correspondingly matched.

And so came the death of Bola Ige - Nisan, and an identifying marker together with a tallying match in the dates/days was made. 23rd of December 2001 thence became the first day of Marduk's tribulation with regard the New year Akitu festival/ceremony.

It is worthy to note that for the convenience of easy reading and understanding the words - "New Year" as in the celebrated festival /ceremony of the New Year, was dropped in this paper in an effort to help aid simplicity and clarity.

From an academic point of view history past came 'alive' moving forward with contemporary time. Ancient Sumerian text boasted as did ancient Egyptian text and my paper - English, the language of the gods, which I had made Uncle Bola privy to, of not only relaying information in English, it brought forth relevant information/messages that could only have been deciphered, read and properly understood in our own present time.

Another Example:

"that which houses that which binds the memory"

The ancient text above taken from Sumeria or from the leading authorities on the text - W.G. Lambert and A.R Millard of Oxford University left me feeling confident and secure with my knowledge as one who had qualified and worked as an IT professional that I knew what was being implied here.

Paraphrasing this Writer read it as -

"that which houses (Computer) that which binds (operating system) the memory (Database)"

At the time of decoding this cloaked message it temporarily left me with an illuminating eureka moment as I had once again stumbled on a monumental once-in-a life-time gem of a find. Once again I was on to a game changer...

'Precise specifications' provided in ancient Sumerian text once again guided this Writer in making yet another monumental discovery. And this one was in relation with the Sumerian creation myth - Enuma Elish.

Here Teema was the deity that gave his blood or sample of it for the creation of Man. And so armed with the 'precise specification' of blood submitted, this Writer draw attention and asked for reference to be made with regard Genome/DNA/Genes and a certain high profile personality.

This Writer boldly in the period between 2001- 2002 seized the opportunity to introduce himself to the high profile personality with the decoded information provided by ancient Sumerian texts.

The decoded information presented itself then as a firm intellectual handshake to a world known International Philanthropist and one of the wealthiest men on the face of the planet.

Teema = Identity X

(For sake of confidentiality this person's identity this Writer would keep to himself.)

Teema was also the identified deity associated with this ancient Sumerian text - that which houses that which binds the memory.

The decoded information given above serves thus to help prove that both points 2 and 3 below as in the aims/objectives of this paper are indeed concretely grounded in truth:

2. To infer that encoded messages may be perceived by reading the original scripts in their proper context using the example of English above.
3. To suggest that the encoded messages are relevant and meant for us in our present time.

Sumerian dieties -Tiamat and Marduk

A good suggestion would be to read or re-read, English, the language gods, to familiarise yourselves with the process by which the names and concepts were parsed and translated.

English, the language of the gods, may be freely downloaded or read online at www.ToluOladimeji.com

And though the subject matter in **that** paper and **this** both bear similarities they however are very different as these ancient civilisations bore different people with different cultural identities -Egyptian and Sumerian.

Again as the aims of the paper treated here are similar to - English, the language of the gods so also are there points worthy to note that may be referenced from re-reading - English, the language of the gods.

Re iteration, it's all in the pronunciation. The key is in the pronunciation and sense of context. Even their gods e.g. Antu and Anu becomes Ant-You and A-New.

Again, if one looks at the original scripts in it's proper context, it appears not only to tell a more informed social history and world view but a story relevant to our time (ahead) and more.

Below, I have provided a few names at random and shall demonstrate that the names can be read in English.

1. Antu
2. Akitu
3. Enki

4. Teema
5. Nabu
6. Nisan
7. Utu Shamash

An analysis of the listed names i.e. summarised history and justification is provided below:

1. Antu

Translation: Ant-You

Summary: A prime Sumerian Deity.

Antu is consistently depicted as the companion to another Sumerian prime deity called Anu. According to Sumerian text Antu together with Anu were seen to be senior or superior to the other deities and so they were able to give the rest of the gods such as Enlil, Marduk, Teema, Enki...instructions and tasks to undertake which they, in turn consented to and wilfully complied with.

Justification: Antu can be called Ant-You as the translated name relayed his attribute. I mean the greatness, power and might associated with this deity.

2. Akitu

Translation: A-Kit-You, A-Key-To

Summary: A festival/ceremony associated with the Sumerian/Babylonian calendar as well as the deity Marduk's tribulation. The Akitu festival/ceremony was conducted by Sumerian/Babylonian Priests who undertook particular tasks/activities in the course of about a week and some more days.....

Justification: Akitu was translated to mean A-Kit-You as in I prepare you. It could also mean A-Key-To as in a key to unlocking a mystery. As Marduk's tribulation had previously not been properly understood by scholars to mean what it does as presently parsed by this Writer. Please go to page 16 and see the last sentence.

3. Enki

Translation: End-Key

Summary: A Sumerian deity.

"A prominent figure in Sumerian mythology, is the god of water, wisdom, magic, and creation. He is known for his role in shaping the world, creating humankind, and his association with the life-giving waters of the Apsu (the subterranean ocean). Enki is also recognized for his wisdom, cunning, and role as a problem-solver, often intervening to help humanity." Source: Google AI Overview.

Justification: This deity's name is self explanatory, Enki = End-Key.

4. Teema

Translation: Thee-Ma as in Thy-Mother..Name suggesting caring personality

Summary: A Sumerian deity. Teema was the Sumerian deity associated with the Sumerian creation myth -Enuma Elish. Teema was the god that gave of his blood for the creation of Man. He is closely associated with Enki in Sumerian mythology.

Justification: Teema was translated to mean Thee-Mother which suggests the caring aspect of his personality.

5. Nabu

Translation: Nab-You

Summary: Nabu was the name given to a marked day during the ceremony and festival in the Sumerian/Babylonian new year. It was also the 5th day of the tribulation the god – Marduk’s tribulation when an assailant/attacker gets caught.

Justification: Nabu translates as Nab-You which suggests an attacker of Marduk’s was meant to be caught on the 5th day of the Sumerian New Year. Nabu was meant to be the 28th of December.....

6. Nisan

Translation: Neesan

Summary: Nisan was the name given to a particular day of the Sumerian ceremony and festival of the New Year. The very 1st day of the festival which was used as an identifying marker and began the countdown to Marduk’s tribulation was called Nisan. And this date in 2001 was the 23rd of December. It was also the 1st day of the tribulation of the god Marduk during the festival and day of the ceremony of the Sumerian/Babylonia New year.

Justification: Nisan translates as Neesan as in without a SAN. An elaboration may be found on page 9.

An important point to note is much like the decoded table provided in - English, the language of the gods, the translation method remains essentially the same.

Sumerian text however is a little more complicated as an additional consideration has to be made when decoding names.

The different names for the same deity even in context of the same story could make the result in translation confusing and not as straightforward and forthcoming with clarity and meaning as previously achieved with ancient Egyptian text.

The names in ancient Sumerian text is characterised by:

1. *Different names for the same deity.*
2. *Different names for the same deity even in context of the same story.*

Example

Enki = Ea

Provided below is an example of the Methodology/Technique used in translation.

Methodology/Method and Technique

The method of getting the names decoded, verified and validated relied mainly on:

1. Pronunciation or re pronouncing the words in English.
2. Contextualisation for confirmation. i.e. words or abstract ideas.
3. Association for interrelative confirmation i.e. names and places.
4. Cross-referencing persons/people with their history/achievements for confirmation.
5. Grammatical transformation.
6. After deciphering, decomposing and recomposing for confirmation i.e. syllables, words, phrases.

Provided below is a translated table with a few decoded Sumerian examples

A Few Decoded Sumerian Examples

SUMERIAN	ENGLISH	DESCRIPTION
1. Antu	Ant-You	Sumerian deity.
2. Akitu	1. A-Key-To 2. I-Kit-You	Ceremony of the New Year Festival. I-Kit-You as in I prepare you.
3. Enki	End-Key	Sumerian deity.
4. Teema	Thee-Ma	As in Thy_Mother. Name suggests a 'caring' Sumerian deity.
5. Nabu	Nab-You	As in caught in the act.
6. Nisan	Ni-san	See explanation on page
7. Utu Shamash	1. You-Too Smash 2. U2 Smash	Sumerian sun deity.

Copyright © 2025. All rights reserved.

The approach to writing this paper has been summarised, simple and clear mainly because this writer has chosen not to keep regurgitating information which has previously been provided in -English, the language of the gods, however relevant.

The reader is once again advised to be armed with a copy of that paper to reference as it may prove to be of help here.

Sumeria – A History in Motion...

As maintained earlier in this paper there were Precise Time Specifications given such as days/dates used in festivals/ceremonies which this Writer discovered empathically relayed messages via codified ritualistic practise.

Take for example the Sumerian festival/ceremony – Akitu.

Akitu = A-Key-To

Akitu = I-Kit-You

The festival/ceremony is marked by the symbolic re-enactments of the god Marduk's tribulation from day 1 all the way to day 8 and beyond.

Day 1 to Day 8 of Marduk's tribulation as articulated in the Akitu ceremony/festival:

- *Day 1 – 4 is characterised by a somber mood, where priests and priestesses attuned to desolation, utter bereavement and grief for the uncertainties of the coming future.*
- *Day 5 is marked in private by the declaration of the king's innocence ' i.e. one in power. Penance and confession is made by him to the god- Marduk.*
- *Day 6 is marked by the emancipation/liberation of Marduk. The belief is "Marduk was confined in the mountain". (Thus Marduk had been in custody for the period.)*
- *Day 7 Marduk is associated with the emergence Nabu. And Marduk's liberation from captivity by Nabu.*
- *Day 8. Marduk is victorious with his destiny proclaimed supreme. (I.e. Assured)*

The god Marduk is further associated with the god Nabu on the 5th day of the festival/ceremony.

Marduk = A Sumerian/Babylonian god

Nabu = Nab-You (As in caught in the act)

Nisan = Nee-San (As in the death of a SAN – Bola Ige)

Scholars have often viewed in confusion and mixed up the days where the Priests/Priestess performed their distinct special activities and duties.

First this Writers decoded translation in English and then another look at the information as previously analysed. By this I mean a closer look at the days/dates such as Nisan which we parsed to mean the 23rd of December

If the :

23rd of December = Nisan = Nee-San (As in the day Bola Ige died)

And the:

28th of December = Nabu = Nab-You (As in caught in English)

Thus the 5 days or 5th day of Marduk's tribulation may be calculated and the count started:

From Nisan as Day 1 to Nabu as Day 5.

From the 23rd of December to the 28th of December.. ,

The implication was the 5th day of the festival/ceremony, the 28th of December was meant to be day marked for Marduk's assassination.

This information was brought to the attention of a certain high profile personality of the International community through the British House of Parliament and a few international news agencies.

Marduk -A Sumerian/Babylonian god

This Writer in the period between 2001 -2002 seized the opportunity to introduce himself to the high profile personality with decoded information provided and parsed from ancient Sumerian scripts.

The decoded information presented itself then as an alarming but yet again firm intellectual handshake with one of the world's most influential men on the face of the planet.

Marduk = Identity Z

(Again for sake of confidentiality this person's identity this Writer would keep to himself.)

Questions And Answers....

Much like - English, the language of the gods, important questions that beg to be asked are:

Question 1 - How did the New Year Festival of Akitu get to be part of the Sumerian calendar?

Answer -The best answer to this question is that it was achieved by their Priests who stood then as the enlightened elite who were also the privileged custodians of the oracle.

Questions 2 -Why did the New Year Festival of Akitu get to be a part of the Sumerian calendar?

Answer - It served as an important vehicle by which particular life-saving information was made available to us all in our present time now

Pressing Points.....

1. Calendar calibration – The old calendar had to be brought in line with the new modern calendar to work out the correct dates of the day. Re: Nisan
2. The sexual identity of the greater gods –The sexuality of Antu and Anu is often portrayed by scholars as heterosexual and as between an older and younger god. However this may not be accurate owing to the margin of error in perception and/or rendering/recording first from ancient observers and then to modern scholars factoring in distance in space and time in both instances.

And even now to our understanding of how things can be perceived and relayed.

For Example:

*Males may be seen as aggressive, assertive and strong. Thus identifying with youth.
while on the other hand*

Females may be seen as soft, tender and weak. Identifying here with age as the god seen to be the older of the 2 gods, was seen to be female.

3. The problem of changing names in different context of the same story. Ancient Sumerian text is inundated with instances where the name of a god changes in different context of the same story.

For Example:

*Different names in different context
within the same story/myth.*

4. Time Updated Content - Again with the Nisan – Bola Ige exposure, Sumerian text prove itself to be of such value that it possessed the power of allowing the reader to sneak a view of the future.

For Example:

From Nisan in 2001 the deduction was that Sumerian scripts were a viable source of providing information of events/incidences yet to unfold....

5. Lastly, armed with the knowledge that Sumerian scripts were a viable source of providing information of events/incidences yet to unfold it may be said of those who were privileged to know and empowered enough to act that they selectively ‘cherry picked’ through fore-told Sumerian events/incidences that had been documented aiming to publicly ridicule this Writer/Seal/Sceptre.

Example:

Zecharia Sitchin a leading Sumerian Scholar specifically reproduced a documented account of the Sumerian Jubilee where the gods – Marduk, Enlil, Teoma and Enki were part of a celebratory procession. Coincidentally, the Year 2002 marked the year of Queen Elizabeth II’s Golden Jubilee celebration where a lot more was expected, a lot more.....

Policing -below continues from page 5. The 'Sumerian' Expedition – A Prologue.

Policing

The world is a global village and we are all interconnected and related. What one does in one corner can no longer be viewed in isolation and relegated to that corner. We have to be responsible for ourselves as well as our neighbours. Or the ramifications may bite us all in the behind.

This too spurs me to write as I not only appear to have ample time on my hands but as a concerned stakeholder I have to use this time wisely in context of what lies ahead.

With that in mind it brings to the fore the question of policing these scientific technological advances which could soon become horrible technological 'abominations.' After all one man's food is another man's poison. So I say let us not even go down that path where issues of ethics come up but rather more so the word preventive 'policing' is apt.

The 'office' in charge of preventative policing conjures up a picture of a team or teams with a head who oversees its operations. The office in turn is to have powers with its remit starting/stopping at policing this field of scientific development to ensure its research and development and application does not exist. Or else we could be producing abominations and horrific nightmares which the world does not want to see.

Policing also conjures up the issue of who runs the office and what qualities that person may possess. It's a powerful position and few may qualify to fill the seat. Qualities that come to mind include competence as a basic standard, then integrity, international clout, credibility and recognition.

I would be seizing the opportunity to make the recommendation for one considered worthy of a position like this. I have in mind Bill Gates for a position this crucial as I am not only sure he understands the issues but it is also a logical progression from leaving Microsoft.

And if indeed at all he chooses to take up the position... ..the remit for example should not allow for bio organics to mix with cybernetics in other words I would strongly not advise for computer technology to combine with organic tissue/biology in the body. Or else we talking horrors herewe are talking of a nightmare in the future.

Peer review mechanism may be embedded in a clause in his accepting the position. To which I may be in grafted to support him in this role.

As I imagine the position may prove to have too many elements to it that make for the need for sensible measures to apply and even for each other benefit especially in the current climate where anytime we approach each other with anything it may be seen as a suspicious red gift either way. And so once again he/we have to be careful and be wise.....and you know you have the additional advantage of having my mind there to check on sincerity of advice.

Rupert Murdoch should have been another person of stature to be recommended for this position as he also comes from a generation that tends to frown on these new technical

innovations. However he is now retired but may chose to graciously and casually cast his glance in this direction from time to time. It's up to him.

There is a fine point Bill Gates may wish to consider.....that no matter how attractive a piece of cybernetics may appear, no matter how good a cybernetic product is, it should be seen for what it is an advertisement and prelude for more research and developments in the field to come. It should therefore be discouraged in infancy as it could easily lead on a technological trend and path to hell. And we both need to be reminded of that in the face of the challenges that lie ahead.

Again straight from the Sumerian text we will both need to keep reminding ourselves that all that was needed to be put in consideration was done by both Enki and Teema to produce the well rounded and finished product – Man.

Man was made perfect from Teema and Enki's point of view. There are no needs for adjustments or cybernetic appendages for man. All was considered from this point in time by Enki and Teema when man was created. Re: Sumerian Text. That is my taking even though I suspect there is research and development out there now that seriously challenges my conclusions.

And if anyone is wondering why this paper is generally available? It is because I do not want to turn my back, go to Africa and Europe is then a cybernetic hell of sorts or well on a path to one. This therefore serves as a warning or guide away from the horrors that could be created.

And yes, there are scientists today or even yesterday who lovingly look forward to when they can download their essence into machines. It's a future no one wisely really wants, a planet with machine beings that evolved from us here on earth. A future far away from cyborgs with cybernetics which I imagine is an aspect that the Seals were supposed to put the death nail to.

From the point of view of the 12 planets this too is cautionary. And as for Sci-Fi fans I would say we are supposed to go to the heavens/space with open clean hands divorce of weapons of war thus symbolic of the universality of peace.

Other than that it is known KKK the ideology, the spirituality or even its adherents who apply its practise are neither wanted or welcome in heaven and so be mindful of that.....be careful be wise.. Case closed here.

Fast-Forward to 2023 and I had been discharged from Cygnet Hospital Woking to live in temporary accommodation in Havering, Romford where the local rumour was there was imminent danger present and ahead.

And so a reception of sort was to lie in wait for me in my temporary accommodation, bedsit. Believe it or not, in 2001 when I wrote my first paper – English, the language of the gods....I lived in a rather cramped 2 bedroom flat and forewarned then of the possibility of 'horrors' as an inevitable eventuality....

Now in 2023 I had been downgraded to live in what you see in the picture below.....

....where I was to meet and get the fright of my life in the form of a genetically modified abominable being - Horrors! A blood hungry cannibalistic abomination made flesh and tactfully placed in my tiny bedsit without my knowledge or consent. I lie not.

Medical Break through - Enki the Turn around Expert.

I was going through my regular routine here at Cygnet Colchester when it occurred to me the Psy -Know-how which had lent itself to be used negatively may be used constructively. And that the know-how was most probably developed by the Sumerians and it got passed down in families for generations and was used initially for medical purposes.

Its application no doubt got corrupted along the way and the misuse began as the intended use. That is up until -Eureka! A light went up in my head and I knew among other things it could be used to suppress high blood pressure aka hyper tension which is a silent killer among relatively young and middle aged Nigerians.....

'Psy-Know-how' or 'Psy Technology' or better still 'Psy-Medicine' are the terms I would be loosely using to describe advanced psychic abilities that may be applied adversely or positively. Up until now however it had been classified and used for deadly assignments. Now we know Psy-Know-how may be used constructively instead for destructive purposes.

Again the year was 2020 and the place was Cygnet Hospital – Colchester, where I had been mentally hounded, taunted and damaged by ‘Psy-Warriors’ one of which they hinted and identified as Musa Amadu – Chairman, Nigerian Football Association.

The damage I suffered was visibly observed in my struggling painful gait – the laboured way I walked and how I felt in my scrutom. Muhammed Buhari was then the President of Nigeria who I had openly criticised and written about.

Buhari - Re: <https://www.facebook.com/tolu.oladimeji.7/posts/10220465723016159>

At this time or time before this Writer incredulously also discovered that there was a well plied and organised Psy-Warrior for hire contractor service available. They could be contracted I experienced through 2 different Public Services. They could be directly assessed through an elaborate telephone relay system. Again I lie not.

It is most likely 2 Sumerian gods, Teema and Enki researched, developed and gave birth to Psy-Medicine to counter today’s medical challenges which we may have hurriedly ascribed Cybernetics for example as a viable solution.

And so from this point of view alone this paper had to be written and as a warning of a future that we should and could easily (cost effectively) avoid: The path or paths in modern medicine that leads us astray or to the forked 3 prong junction below should be given a miss:

1. Cyber medicine – As appendages in medicine which should be discouraged.
2. Nano medicine
3. Robotics medicine

High blood pressure aka hyper tension happens to be a silent killer of young Black people in Nigeria/Africa. It’s one thing to detect it in a person it’s another to be able to afford medication for it. That too is why it is a silent killer – Affordability of prescribed medication.

I did say ‘it’s our turn, it’s our time ‘and it is also our responsibility.....and so with well managed Psy-Know-how/Psy-Medicine a host of afflictions that have plagued mankind could easily be resolved.

For example - ‘Top-ups’ that dispels the nightmare of being ‘virility challenged’ for those who suffer impotence or the depressing degrees of it, can have it speedily resolved with a painless, non invasive and contact free ‘Psy-Top_up’ procedure that increases the sex drive, male penis rigidity and staying power/duration.

In a world with vested interests this paper is also about putting order to the perceived chaos that this new discovery may herald. Questions that may arise as to what now happens to modern medicine may be grossly over exaggerated. Modern medicine and Psy-Know-how should be used complementarily.

Advances in Western medicine should not be thrown away in the face of contemporary new found Psy- Know-how. I would be recommending choices for patients to choose from along the way.

From clinical western diagnosis of illnesses to then offering medical solutions which may come in form of:

1. Western prescription pills,
2. Herbal pills or
3. Psy-Know-how

Modern medicine practitioners need not feel insecure or threatened. It is an exciting time and they may practise side by side each other.

The seeming lack of creative solutions along the lines of herbal and biological has no doubt lead to premature conclusions that solutions may only be found in cybernetics. And thus research funds for innovative medical solutions have gone the way of cybernetics, robotics or nano medicine and not herbal or biological organic research.

Diagnosis

It goes without saying modern medicine technology especially can be used without a shadow of doubt for investigative diagnosis. E.g. Radiological x ray scans for eye, heart, head and so on. And then there are the years of study to familiarise one with the basics in human physiology and then biology and chemistry in the body.

These constitute years of knowledge and experience that will not be wasted in the new rush for painless and non invasive application of Psy-technological medicine as a solution. Especially as the Know-how appears not to be expensive, hard or difficult to master in cost, time or in application.

As things stand now from an educational view point there may be different pathways and criterion to qualifying for what we may define as a Psy-Surgeon. A Psy-Surgeon being one who has mastered the art of Psy-Medicine or Psy-Know-How.

They may be categorised into 3 qualifying groups:

1. 6th form student with standard science (Physic, Chemistry and indispensably Biology) knowledge + Psy-Know-how
2. Doctor - Standard University medical school route + Psy-Know-how
3. Apprenticeship route.

And it goes without saying Psy-Know-how in the hands of a 6th former should be carefully monitored. Parental supervision is advised together with perhaps a carefully logged note book documenting all the Psy-Surgeons activities.

The mind races with possibilities as this medical solution appears ideal for remedying problems like mental illness/illnesses. Mental illnesses plagues rural and even urban Africa simply because money for treatment often proves well beyond the patient's ability to pay for it on the long term basis.

This tends to result in that cruel picture we see of mental health patients in Africa being chained down in camps being run by well meant but poorly funded individuals. Medical bills for illnesses that come along with prescription pills is an issue in both rural and urban Africa again this is a reason why I believe this medical alternative, Psy-Technology was researched and developed. And it thus promises to be a panacea to this old problem.

It is hoped that Secondary school students or 6 formers with Psy-Know-how can be accorded the positions of medical practitioners but graded to perform certain basic medical tasks and despatched to rural places in Africa where issues of cost for medication constitute a hindrance to wellness.

...Since we are talking Africa and cost efficacy we might as well touch on this.... By this I mean the purchase of certain expensive and large medical equipment like X ray machines. It is an important issue as those who do the purchasing do not know they are in positions to dictate the form and structure of the product they wish to purchase.

In other words they, the purchasers may do that to reduce their costs in the long term by specifying that the architecture of their machines should be basically structured so the manufacturers know to design and allow for units to be included or upgraded in their products.

The idea of 'slotting racks' or 'units' is not new and is easily manageable from the point of view of the purchaser. These may then be periodically when need be be upgraded by their units or slotted racks that may need replacement.

Units that may need periodic upgrades of slotted racks may thus include:

1. CPU processors,,
2. CGI Software,
3. Graphic imaging processors/cards,
4. Databases

The purchasers are not burdened with buying the whole large frame equipment/machines a new. Re: X-Ray Machines. This could be more the case in Africa or developing countries where cost of machines/equipment is a important issue. And so the design of the machines should be tailored to suit the requirement of the purchasers.

It is why I have suggested 'slotting racks' of CPU processors or Graphic imaging processors to upgrade ...instead of buying new bulky machines.

Other issues like the gay gene as controversial as it may be in West but never voiced out of fear I imagine, would in time in Africa where it is still seen to be a taboo and too much a burden to carry, it would be put to rest there and at infancy. Re: Gene edition.

In other words a child may not have to go through the unpleasant experience of being seen as an outcast or worse still 'freak' to live in later life without a family and company of his own.

In any case the choice would be presented to the parents to decide the fate of the unborn child. To be born with the gay geneonce identified or not? This is the possibility of choice modern medical science now provides us.

In conclusion.....I will say a qualified Doctor who has the add-on skill of Psy-Know-how would I imagine be well sought after. That is why I say modern medicine plus Psy-Know-how is the 'bomb' in terms of medical solutions.

I have quoted from an electronic source (below) as I needed a popular Independent and neutral source to quote from. The information used is general common knowledge.

Electronic Source

Source: Google Ai

Seals - last Homage.....

The power and the might.., like kings/knights of a time gone by, I once wrote...

..."let this stand as the 1st Seal's and now last Seal's words...words of 'the last Starfighter.' ..

...As it was before.....let it come back!

for...

Once we were Giants. Men of Renown...

Its' been 24 long treacherous years full of threats and the danger to life. This Seal managed to hold his own. At risk of being killed many times over or even laughed to scorn ala Don Quixote we persevered and pressed on...on the expedition/Quest.

Much earlier in the 24 years I did say, the expedition/quest would go through stages....

1st - Committed...

2nd - Entertainment/laughs/Fun...

3rd - Survival lastly....

Well here we are.....

There were accusations - He is making it up. To that I will say, candidly -we are guilty of only just figuring it out....

And it became clear with full realisation when the fruits of the expedition/quest began to manifest with dumbfounding discovery after discovery...with ribbon-cutting milestone after milestone....which I modestly submit left the whole world over and over again - agag, agape and a-wowed!

.....too black...

.....too strong.....

Again evidently harvested fruits like "Top-ups" that now leave previously frustrated couples - happy and relieved, reawakening lost passion and romance in their relationships as they walk locked lovingly arm-in-arm....

...could it be we (Seals) were meant to herald - a new day, a new life, new world, - where a fresh set of international standards were privately tabled/presented and then in turn publicly discussed/introduced, globally?

I mean with discoveries awash from Psy-Medicine to Psy-Investigative Journalism and then to security driven oracular fore-telling?

Ashameably I will admit I now feel downcast/beat.....and so count me out from any further adventure.....as i am never, I imagine to revisit the creative form/position I once held and took for granted 25 odd years ago.. as I did not have the opportunity of company of colleagues in any of the relevant fields of study to rub minds with.

Just as I was denied/robbed of the satisfaction of enjoying moments with inspirational heroes and greats in my book like - Kashif, Prince, Roberta Flack, Quincy (Q) Jones, Ama Ata Aidoo....by premature death?

I had been robbed of things too precious and dear to admit. From my now defunct but once valued marriage to a beautiful wife....to regressing and deteriorating into being an absentee father guilty of missing out of the most cherished memories of all - of not seeing my only lovely daughter grow up.....

.....to the now lost but evidently clear, promising career of a gifted Writer/Researcher.

Still yet.... still yet, half smiling to myself and looking at this morning's radiantly bright burning summer sun, I tell myself...

*".....with all its sham, drudgery and broken dreams,
it is still a beautiful world"*

lol..

Mother

This statement was loudly made by a male friend and confidant of yours.....A one-time civil war hero and President of Nigeria.

“..The question/issue of leadership we can no longer ignore/deny..”

This statement was made on the 1st of October 2001 (Nigeria’s Independence day) right after my letters/documents titled – “Reality Check” reached his desk and the intense pressure which he suffered owing to the September 11th tragedy, immediately subsided.....

At the time he was gobsmacked and overwhelmingly impressed with me.....

I wrote and sent the following message to my Mother – Koma Anne Sota on the 23rd of May 2025. It was sent together with a revealing interview given by awarding American Singer and Pianist -Roberta Flack. And a song she sang – You make me feel brand new.

The interview, the song and the Whatapp message were meant to all come together to deliver a final good-bye message.

Immodestly I title the message -
"None born of the womb....."

Mother, let this be my last salute to you....

You who once sent me to Kaduna and Ife....

Then again you never really knew me.

Cos' if you did....you wouldn't have dared....

..if you knew..the capability..you would not have.....

It is said - only the best for Eshu. Yoruba Traditional religion has it so....

And in this day....in the now I have said - None born of the womb will equal the deeds of Eshu.....

And yet you chose to transgress against me and in ways none could ever forgive.....

Wisely I would say surrender all that is mine to me and go your way and for good.

Never again would this offer be made to you.

Watch and listen to the Music Artist - Roberta Flack, I just sent you.

One is her interview and the other her sound track.

Never again should we ever set eyes on each other and let the restraint of common sense prevail here as its much needed.

Soar I was meant to. Soar I shall strive to. And I am sick and tired of your sordid backstabbing meddling...

Go your way Koma as my life is not your life to find relevance and meaning in it.

All that is left for you to do is give me the telephone details of the people I gave you.

And on this high note. I hope to say a final - Good bye!!!

To all Ugabajo members
As written on the 6th of June 2025.

To my mother - Koma Anne Sota's social group.
It's an Itsekiri/Nigerian socio-cultural organisation called - Ugabajo.

Dear Ugbajo members

My name is Toluwalase Oladimeji. I am not only the elsewhere son of Koma Anne Sota but I happen to be the academic author of a groundbreaking discovery.

It is titled - English the language of the gods. And may be found to freely download on my website at www.ToluOladimeji.com

It's been 24 years now since I wrote my paper. Large amount of money has no doubt changed hands as Mrs Koma Anne Sota has consistently and blatantly lied to not only character assassinate me by claiming I am insane and need to be locked away but also laying claim to my academic work and it's ensuring and forth coming returns.....

To which I have had to fight it may be said both blind folded and with my hands tied behind my back against the whole family....

To inform you all of my experiences since writing my paper in 2001 I have written another document in documentary format called - One Man's Walk...
....which I have attached for all to see/read.

It reads incredulously pushing the boundaries of truth.....but it's all true.

"The Mother of all Conspiracies".....was originally written and sent to an Uncle on WhatsApp.

He is Sam Amuka the Publisher of Vanguard newspaper- Nigeria.

Please make both I.e.

1. One Man's Walk..
2. The Mother of all Conspiracies...

.....available to all members.

Thank you.

Toluwalase Oladimeji
Author - English, the language of the gods.
www.ToluOladimeji.com

To Uncle Sam
As written on the 3rd of June, 2025.

Uncle Sam is also known as Sam Amuka and he is the Publisher of Vanguard newspaper - Nigeria.

I wrote this to him and immodestly I titled it -
"The Mother of all Conspiracies.."

Dear Uncle Sam Amuka

Yesterday, I called you audio visually (WhatsApp) and met the 'painted' paraphernalia of death clearly depicted in a picture that was hanging above your head.

Hmmm story don dey war...war....you can not pretend as at this time the latest impetus to the phone call was - news on Koma Anne Sota's up coming birthday.

To which before I could even land and put forth my latest update to my ordeal.....you kept asking me, who is your mother?

It was surprising to hear and distracting when said but then I managed to give an answer that wasn't rude, considering.....

...I have long maintained that I hadn't seen or heard from my only daughter and for 6 years....

I have long maintained that Koma Anne Sota has not in 6 years bothered to check on the welfare of my daughter and her only grand-daughter by me....

I have long maintained that though I live in England 'hardened criminals' have been at work and as a result I have suffered dearly....

I have long maintained it all adds up to be the 'mother of all conspiracies'.....
I mean from...

1. Alien/ Amun speculation
2. September 11 twin towers collapses..
3. Nuclear bomb briefcase.
4. HIV/AIDS...
5. International Money laundering
6. Illegal fragrant printing of Money.
7. True origins of man....
8. Heroic aversion of the assassination of Queen Elizabeth.

9. The physical and spiritual defense of Southern Nigeria from tribal ethno centric genocide.
10. Classified Psy-Medicine.
11. And more....

I have long maintained albeit discreetly this all goes back to the 60's hinting at the illicit sources of wealth of some families and the unjustified educational/academic qualifications/achievements of others like Prof Wole Soyinka and his Noble laureate?

It also yields even more dark secrets like the aspiritual recruiting factor that held it all together.

Again we are talking 60's England as the home and birth place of all of this..

The place where my own father began to experience his descent into obscurity from what was once a sure-fire bright royal career/destiny.

He belonged to a house you see...one that was recognised even here in England back in the 60's.

And he was heir to it and it was whispered to even more....

Anyway my priority still remains quite clear. I have kept you update with the hope that I may solicitate your help in my matter.

By my matter I mean tracking and tracing the welfare and where-about of my daughter - Tolani.

And also bring you and your newspaper/Vanguard up to date....informing you of my innocence and the many attempts at not only framing me but attempts at kidnap and assassinating me.

I have come to learn by virtue of the academic discovery I made (English the language of the gods) that a crop of so called leaders like Obasanjo, Buhari, Babangida and more....have proven to be bonafide subscribers to occultic and aspiritual kkk white supremacy.

I on the other hand have helplessly watched as they have proudly and treasonously flaunted their being part of this racist criminal organisation openly identifying with colours associated with a hidden code and agenda.

Again it should be made known through your news medium that their campaign to frame me and set me up continues even till now - nocturnally as I have been made aware of their aim ...

.....and in full view of the world it has been to claim I belong to their abominable aspiritual luciferian sect desiring to make a Fall-Guy of me by forcing their own blood soaked guilty judgments on me while in truth I have been a blameless devout Christian, an academic scholar par excellence and a hero many times over.....

Again I have asked of you Aunty Mercy's phone number as she may lend her ears more and be more receptive....

lastly I seize this opportunity to distance myself from Mrs Koma Anne Sota who has chosen to blatantly lie that I have been insane and need to be locked away so she and others may lay claim to my academic work and it's forth coming fruits....

This has been going on for 24 years now. 24 years.....

To Pastor and Doctor Fola Sola-Alade of Liberty Church, UK.
As written on the 30th of April, 2025.

It was titled:
Matters arising!!!

Dr Sola Alade

Attached is a document that details my experiences since after I wrote my paper - English the language of the gods.

If memory serves me right I was at Trinity Chapel at the time/2001 and you told me you took my paper to both General Over seer - Enoch Adeboye of the Redeem Church and to your Uncle the then President of Nigeria Olusegun Obasanjo.....what you then said was their immediate complementary response to it was an unanimous - scholar par excellence!!!

I swallowed that with much apprehension knowing i left my then beautiful and pregnant ex wife at home.....

I waited eagerly even seeing and knowing I and my paper was the inspiration of your first book - Hidden Treasure.....

You then took me aside and seeing the uncomfortable delay in their publicly acknowledging the paper for work well done, you in turn said.....hmmmm....Tolu, beware of jealousy!!!

Much later you were to callously and dare I say carelessly say ..Tolu....move on! Indicating I give up on pursuing and pushing my paper/discovery and get on with my life.....

Anyway much has happened since..... it's why I am including the attached document which I have calledOne Man's Walk.

It's not all that has happened but it's something that captures some of it. My ex wife who you know in person - Eloh has passionately refused me access to our only daughter Tolani, 6 years and going and there is more.....

You may read and come back to me with your feedback as a documentary is intended to be made with the document.

There is more I said....there is " the African solution..." and a whole lot more...

Please call.....07942 580182.

Thanks.
